

New Mexico 4-H Project Book Ordering Guide

This guide serves like a catalog of project books and their corresponding 4-H projects. Some books are used for more than one project that youth can be enrolled in. Project books change periodically, so you can also use this as a reference for older project books to ensure they are up to date by looking at the cover and revision date. There is no need to order books you already have! If you have any questions or are uncertain of which books to order, please contact the extension office. Order project books online at sorroextension.nmsu.edu.

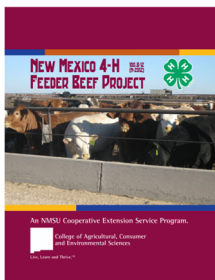

Animal Science

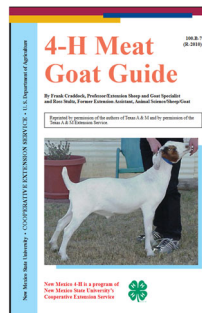

1001 Beef Project
1003 Cattle Breeding
Revised 2010
