

My Project Story Tip Sheet

Your project story is an opportunity to go into detail about each project. Projects may be mentioned in your 4-H story, but the details for those projects go in this section. This story should be 1-2 pages.

- Include goals for your project.
- Include project activities.
- Include lessons learned.
- Include an entertaining/funny story.
- Reflect on your overall project experience, and how you could improve.
- One project story should be written for each project.
- NEVER should your project story and your 4-H story be the same.
